

There are four main areas of improvement:

New Universal Search

and

a Virtual Notepad, Integration with Gmail, Sage ACT! Connect

Faster, More Expansive Universal Search

Find What You Need...Faster

- Universal Search:
 - Find that key document or piece of info you need in your contacts, groups, companies, opportunities, notes, history, and attachments.
 - Filter your search criteria by all dates, last 24 hours, last week, and last month.
 - View search results displayed by relevance and double-click on the item of interest to be taken to that particular field or attachment.
 - Use the back button to view the search results page again.

Universal search is faster and more expansive

Sage CRM Solutions

Find What You Need in an Instant with a Faster, More Expansive Search Option

You've got all the details of your business relationships organized in Sage ACT!, but you need an **easier way to dig into that data**. With a "**New Universal Search**" option, **you can find that one thing you need in an instant**, because search is faster and more expansive than ever.

Let's say you're looking for the sales proposal prepared for "Yellow Jersey Bikes". **Sage ACT! will search your contacts, groups, companies, opportunities, notes, history-even attachments** for that term. Further hone your search when you **filter by all dates, last 24 hours, last week, and last month**. Once your search results are displayed by relevance, simply double-click on the item of interest and you're taken to that particular field or attachment for more detail.

And, if it's not what you're looking for, simply use the back button to view the search results page again.

Feature	Keyword Search	Universal Search
Search on Keywords	X	X
Open dialogs from the Search results		X
Filter search results on Entity type	X	X
Filter search results for secondary contacts and products		X
Search attachments		X
Filter search results by last update date		X
Create lookup	X
